

Our Vision. Our Mission. Our Values.

- **Our vision.**

We believe stories make history.

In this time of uncertainty it is necessary to promote **optimistic stories** to create a better world, to give inspiration and faith to the younger generations who will deal with great challenges. At the same time it is important to **bring awareness to social issues** while not minimising the amount of work that we face.

Reality is only a matter of perception.
It is easy to look down on it. Much harder to look up.

Don't get us wrong. We like a challenge.

- **Our mission.**

Through Filmmaking we believe we can make a difference.
We believe filmmaking has an incredible potential to communicate ideas that can change the way people think and act. Most of all it is the human factor that interests us. We want to see the people who are facing great responsibilities; we want to show how they struggle and how they hope. We want our films to be moving, presenting heroic actions.

We do this through **documentary, feature, corporate and commercial** productions. We provide a wide range of professional technicians in the audiovisual field and we work on an international scale.

From story developing to post-production Grizzly Films will make your dreams come true.

- **Our values.**

We are constantly trying to put our feet in other people's shoes.

We do this with great respect of all the actors in the chain. **Authenticity** and **passion** are at the center of our concern. We believe our work has incredible potential and we are proud of it. We want to work in a professional way both technically and artistically. Therefore it takes time. The Grizzly is conscious about its environment and takes care of it. Others animal live in the same world. We respect them all.

We are enthusiastic, dynamic and determined.

GRIZZLY FILMS A.S.B.L.
